GROUP PACKAGES 2019

SUSTAINABILITY

We love Amsterdam and therefore work as sustainably as possible. Our fleet is clean and quiet, which is good for the environment and for the city. Sustainability is therefore also the key word in the collaboration with our suppliers and partners. Since 2012, we have been rewarded for this with the Golden Green Key award, the highest international quality mark for socially responsible entrepreneurship.

At Stromma Netherlands – previously Canal Company – we know Amsterdam like no other. We know every canal, every bridge and every docking area. Sailing – that is what counts, whether it is by open boat, classic boat, event ship or pedal boat. Our wide range of activities allows 1.5 million guests annually to experience Amsterdam at its best: from the water!

Our fleet has been sailing through the city for over thirty years and we have something for everyone. Exploring unfamiliar canals by classic boat, transferring from canal to canal to combine transport with sightseeing or team-building on a pedal boat – all of these are possible with us. We are part of the international Stromma Group, active in the shipping industry and tourism for over 200 years already and with branches in twelve cities in five countries. Our brands Stromma, Canal Tours Amsterdam, Hop on-Hop off, Amsterdam Excursions and A'DAM LOOKOUT are visible in the city. As a market leader on the canals, we work with a passion for the city, an eye for innovation and love for sustainability. We offer companies, families and anyone who has something to celebrate an unforgettable experience with a good feeling and the best view of the city.

WATCH OUR COMPANY MOVIE 

In Amsterdam, the water is never far away. We would like to help you enjoy it to the max. As host of the city, our team of 350 employees applies itself to offer unforgettable experiences in Amsterdam. We do so by offering tours through the ring of canals and numerous packages on board our ships. We work together with local attractions that are easy to access by water thanks to the extensive network of canals. We also organise excursions and promote other tourist activities, such as the A'DAM LOOKOUT. We always strive to provide our guests with lifelong memories.

For the convenience of our guests, we offer fully arranged days in Amsterdam, including entrance to attractions. A canal cruise can be combined perfectly with a visit to A'DAM LOOKOUT, the National Museum or the Artis Amsterdam Royal Zoo. Our Party extras make it especially fun on board with a bite to eat and a drink, a guide or live music. For us, not only the destination but the trip there as well is a highlight.

CUSTOM-MADE PROGRAMME

Informal drinks with clients, meetings on board, fashion shows or a ball pit boat: Stromma has a ship to fit every idea. Based on specific desires, we draw up a programme that links up with your company, brand or family seamlessly. Our fleet also offers various possibilities for boat transfers to and from convention locations for parties of up to 1000 persons. Need some inspiration?

Our experienced colleagues are happy to help! The sales team is available during office hours at **+31(0)20 217 0500** and via sales@stromma.nl to discuss possibilities.

Canals filled with history, modern architecture on the IJ and a trendy harbour area – Amsterdam focuses on water. It was so already when the VOC ships chose the deep blue sea and it is still so today, with the EYE film museum located on the IJ banks like a landed spaceship. If you want to really experience the city, you must go on the water.

KNOWLEDGE OF THE CITY

It is the combination of tangible history in the form of canals, bridges and warehouses with futuristic buildings, huge cruise ships and brand-new hotspots that make Amsterdam a city of stories. Our guides are happy to tell you these stories. They know everything about the history of the city – from the infamous red-light district to the prestigious Golden Bend on the Herengracht – but also about the modern architecture and the latest developments on and around the IJ. Experience highlights such as the Skinny Bridge, centuries-old plaques, traditional hoisting hooks, churches and houseboats from the perspective of the canals. Because Amsterdam is beautiful and its beauty is best seen from the water!

Amsterdam has a lot to offer – as a bustling city and as a location for events. A lot is scheduled for this year as well, and we would like to go just one step further. All of these spectacular events can be experienced with us on the water. Fun as a company outing, as a day with the entire family or in combination with visiting a convention at the RAI or Beurs van Berlage.

Our fleet has some eye-catchers, one of which is the beautiful party ship Luisa Treves. This floating party location on the IJ brings groups of up to 120 persons to more undiscovered places of the city. The ship leaves from behind Central Station and sails past popular hotspots such as A'DAM LOOKOUT, the Muziekgebouw aan 't IJ, the NDSM wharf and the imposing cranes of the Amsterdam harbour area. Even for citizens of Amsterdam, this is an undiscovered area! With a little luck, a huge cruise ship will be berthed at the Passenger Terminal or they will just be busy unloading a ship in the harbour. Book a guide with your trip - he or she can tell you all about the modern architecture along the IJ and the industrial harbours. With nice weather, it is lovely to relax on the open upper deck, and on less sunny days, it is cosy in the spacious lounge and the authentic ship's bar.

An imposing building with an impressive view. Amsterdam's stunning viewing point at a dizzying height. The A'DAM LOOKOUT opened its doors in 2016 and is already an unprecedented success. The adventure begins in the futuristic lift that zooms up to the twentieth floor in 22 seconds. There, the city can be admired from a viewpoint that is normally only enjoyed by the birds. The old centre with the ring of canals, the harbours and the surrounding polder landscape - you can see all of it in miniature, 100 metres below. Getting even closer to the birds is possible - if you dare. Over the Edge is on the roof: a swing that, as implied by the name, swings over the edge of the tower. The view of Amsterdam was never so breath-taking. Literally.

TO THE TOP BY BOAT

A'DAM LOOKOUT lies on the IJ, which makes it excellent to combine a visit to this ultimate viewing point with an event on the water. Go up the tower with the whole company after a lunch on one of our boats? It is possible. A'DAM LOOKOUT has its own mooring, aiding in the seamless connection of the experience on water to that in the air.

SUSTAINABLE SEASONAL PRODUCTS

For almost a quarter of a century, Meinders delicatessen company has grown to become one of the largest caterers in the region of Amsterdam. This professional family company works as much as possible with local suppliers and organic seasonal produce, such as wild mushrooms or strawberries, and the traditionally baked bread comes from their own bakery. Meinders Catering has respect for everything which comes from the land and therefore wastes as little as possible. By being inventive with various dishes, the best is obtained from all the ingredients. A sustainable approach, so everything tastes even better.

RICE TABLE ON THE WATER

At family company Asli Indonesia, they do not use a recipe book. They cook the century-old Indonesian dishes on the basis of their experience and feeling. Classic dishes such as Nasi Jawa, Gado Gado and Daging Rendang therefore taste exactly as they used to in Indonesia. They call that Tempo Doeloe and it tastes delicious. Everything is subtly seasoned, prepared with love and sometimes combined with new ingredients. The best rice table on the water is served on board our ships.

CON AMORE

It doesn't matter whether it is a carpaccio, lasagne or saltimbocca, real Italian food is prepared according to a traditional recipe: with love. With the various regional types of cuisine as inspiration, the chef of Buonvino cooks heavenly. One day the recipe is from Tuscany, the next day from Sicily, but it is always the very best of Italian. With traditionally baked bread with organic olive oil and perfectly balanced hot dishes - Buonvino brings a piece of Italy to the Amsterdam canals. Con amore!

WINE SELECTION BY THE EXPERTS

Our wines are carefully selected by wine house Vinites from Haarlem. These experts have been importing wines for twenty years and have composed a number of attractive packages for you. Connoisseurs who prefer to make a choice themselves are of course very welcome. You will see on our extensive wine list which quality wines we serve.

Any special dietary requirements? Just let us know in your booking request and we will gladly adapt our meals to your wishes. For each type of dietary requirement a surcharge will be charged.

IT IS POSSIBLE FOR GROUPS of 20 to 1.000 persons to enjoy Amsterdam from the water - on our event ships. A canal cruise, transfer or on-board meeting is easy to combine with our group packages.
